Southwest Gas Corporation

Headquartered in Las Vegas, NV since 1959, Southwest Gas currently serves approximately 1.5 million customers in Nevada, Arizona, and California. Southwest Gas Corporation was founded in 1931 and began selling Liquefied Petroleum Gas (LPG) to the community of Barstow, CA. In the early 1950's, Southwest recognized the potential of clean, efficient natural gas, and is today one of the fastest growing natural gas distribution companies in the United States.

About 50 Southwest Gas Corporation field workers use GSI Inventory Inspection & Facility Design to support transmission reliability and improvement process.

“ Southwest Gas Corporation is today one of the fastest growing natural gas distribution companies in the United States.”
